

SuperSportPioneer SSPB

Directional pattern specially designed for refitted vehicle

Section Width: 235-305

Speed Rate: H/V/W

Rim: 18-26

Ratio: 25-60

01. Stability

Wide tread and the large shoulder blocks

Provide outstanding control performance

Drive stability

02. High speed

The small grooves within the pattern blocks

Reduce the rigidity difference between each pattern block and enhance grip performance

High speed safety

03. Safety

Wide and deep transverse grooves with bamboo type longitudinal rib design

Enhance the control performance
